

## Cost Segregation Partnerships

Use our Cost Segregation Department as your own! Cost Segregation Partnering and Outsourcing are the trend to quickly implement Cost Segregation to your existing service. Discover a new market by servicing your existing clients through us. We can customize reports to match your company theme, logo, and design to meet your company's standards. Or you can use our standard theme and just change the name for your Cost Segregation Study. Once you become our Cost Segregation Partner, you can market yourself as a Cost Segregation CPA and review and classify the assets as they pertain to the facility's use based on IRS rulings. We offer Cost Segregation Training and Software to groups who are looking to learn beyond the book and learn from our Cost Segregation Specialists and sharing our extensive experience with reports and avoid audits. Sign up with our Joint Venture Program and let's make Cost Segregation Studies a Win-Win solution!
